

Trends in ETS & carbon pricing worldwide

Constanze Haug, Head of ICAP Secretariat

ICAP- supporting international ETS development for a decade

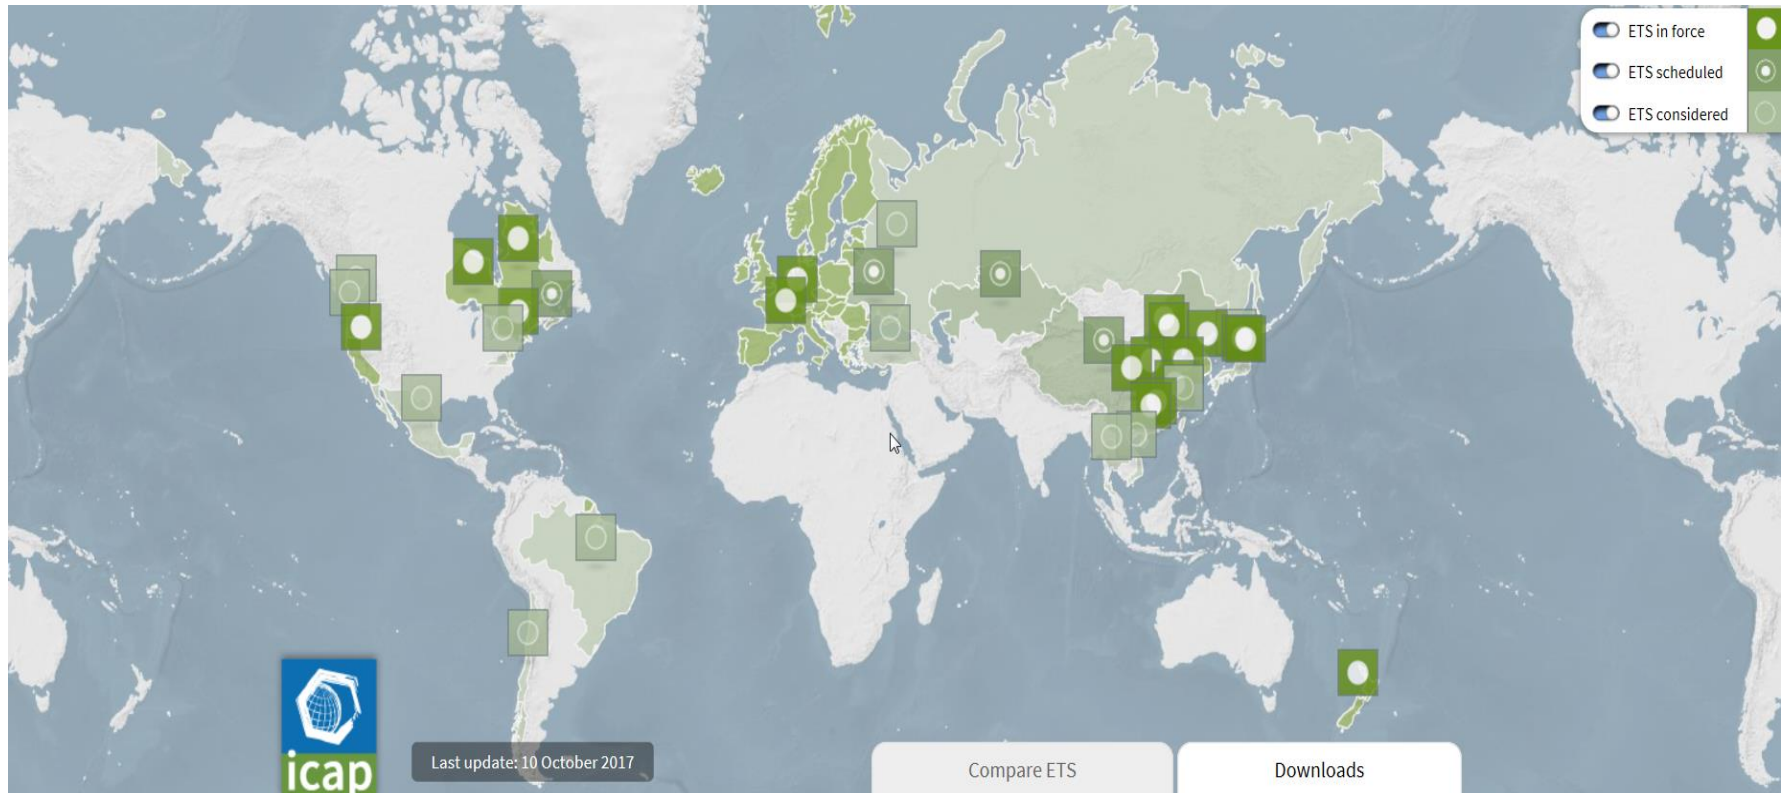

- **Partnership** of 35 governments from four continents
- Focus on **ETS only** allows in-depth technical discussions on design and compatibility issues.
- Dialogue includes ETS government leaders from both **national** and **subnational** level.

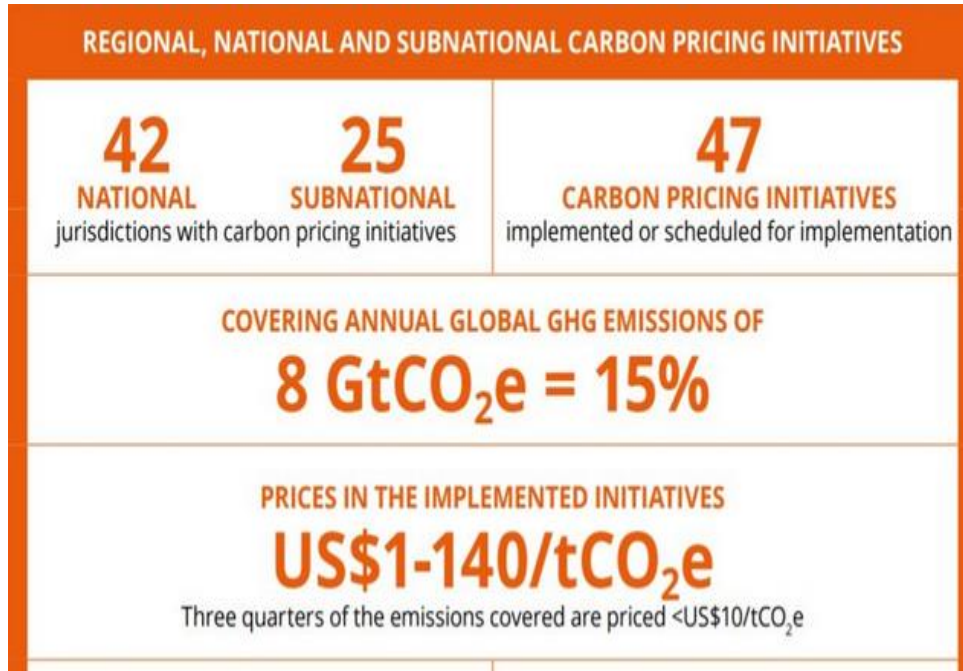

ETS worldwide

18 systems now in force worldwide

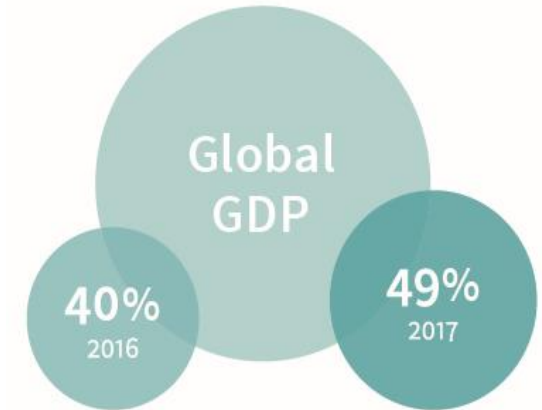

- + China
- 13 systems under consideration

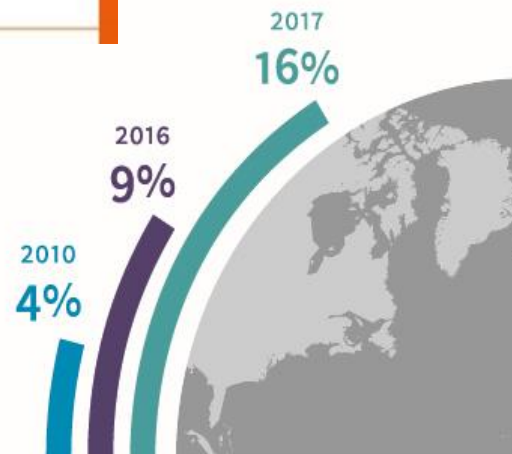

Carbon pricing and ETS in figures

Proportion of global GDP from regions that have implemented ETS

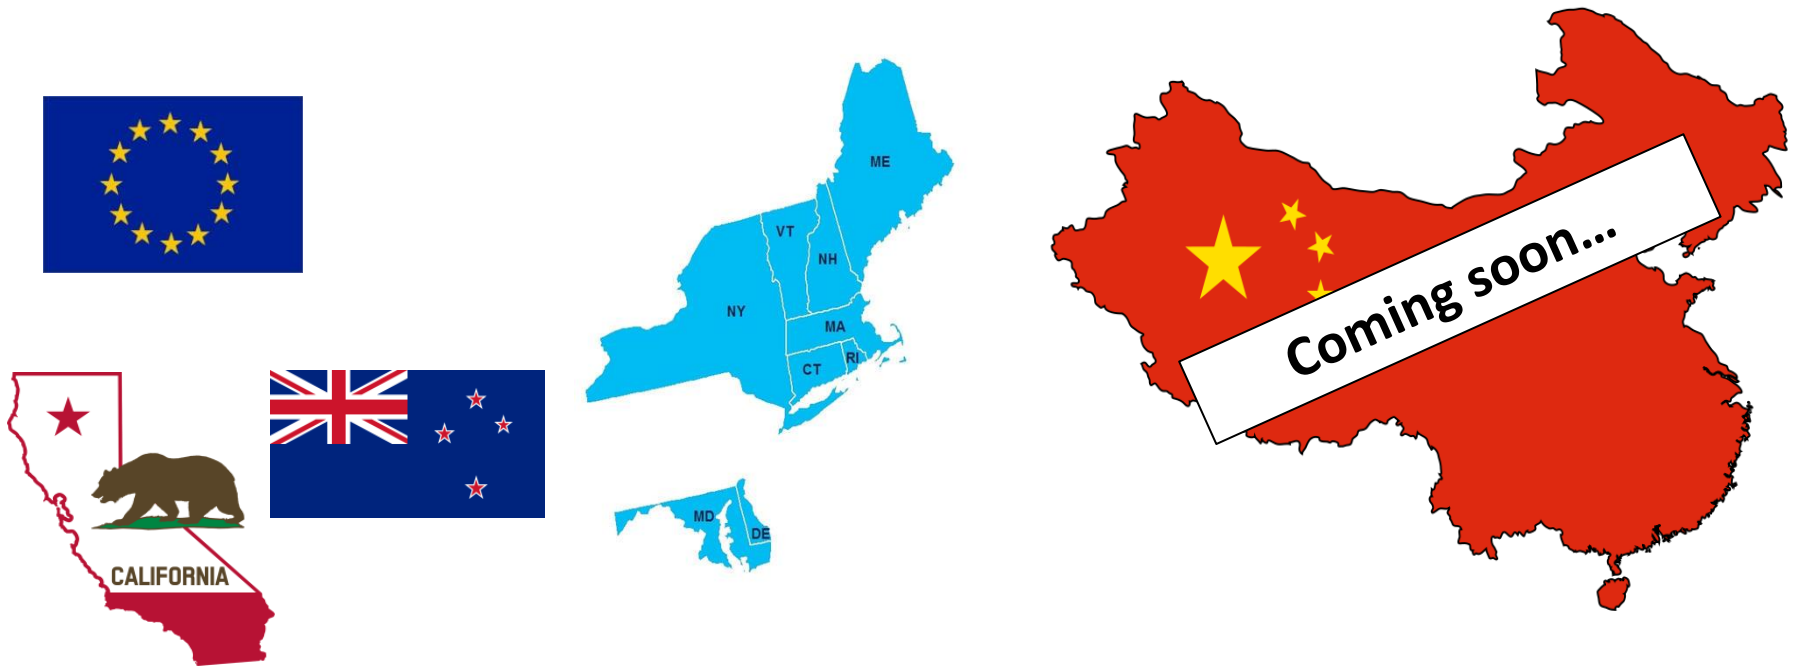

Coverage of global emissions by ETS

2017 – a good year for carbon pricing

Key developments in 2017: Pan-Canadian carbon pricing plan & carbon taxes introduced in Colombia & Chile.

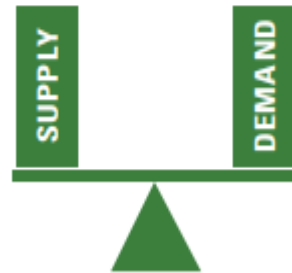

Major ETS Reforms concluded

Launch of China national ETS
