

## RÉUNION DU CLUB CLIMAT FORET & BOIS

Jeudi 17 octobre 2024 de 9h à 12h30

### Webinaire

- 9h - 9h20 > **Actualités du Label Bas-Carbone**, Maguelonne Joubin (DGEC)
- 9h20-9h40 > **Faciliter l'utilisation des tables de production dans le cadre du Label Bas-Carbone**, Soisick Figuères (CNPF)
- 9h40 > **Quelle valorisation des bénéfices climat des produits bois dans les méthodes de certification carbone (stockage carbone et substitution) ?**

**Place des produits bois dans la certification carbone : vue d'ensemble**, Simon Martel, I4CE

**What role for wood products in buildings in the European Carbon Removal Certification Framework ?** Sevim Aktas, DG Clima, European Commission (ENG)

**Presentation of the Construction Stored Carbon methodology**, Sacha Brons, Climate Cleanup Foundation (ENG)

**Présentation de la méthode Label Bas-Carbone Bâtiment neuf biosourcé**, Juliette Griton, WO2

**Roundtable with three guiding questions:**

- *Is the duration of 35 years long enough ? What are the pros and cons to extend this period?*
- *How can we ensure the sustainability of wood supplies for certified buildings? How can we ensure that the supply does not unbalance the forest carbon sink?*
- *Under which conditions carbon certification of wood products can be an effective incentive to increase the use of wood materials in the building sector?*

- 12h15 > **Conclusion**
